

## West Marine View Drive natural gas service relocation project

August 16, 2017

In conjunction with the City of Everett's Grand Avenue Park Bridge, Puget Sound Energy will be in your neighborhood relocating the natural gas main along West Marine View Drive. We are proud to serve in your community and are committed to completing the work with as little inconvenience to you as possible. Please see below for project details.

### Work details

- Who:** Natural gas crews from PSE and InfraSource  
**What:** Relocating natural gas service line  
**When:** Work is expected to begin the last week of August and is anticipated to last approximately three weeks. Typical work hours are Monday through Friday, 8 a.m. – 4 p.m.  
**Where:** West Marine View Drive between 18<sup>th</sup> Street and 10<sup>th</sup> Street (please see map on reverse)

### What you can expect

- Signs and traffic control flaggers will guide vehicles and pedestrians safely through the work zone
- There will likely be noise from trucks and heavy machinery
- This work should not impact electric service in the area
- **Most customers should not experience an interruption of natural gas service during this time.** If an interruption of service is needed, our crews will notify impacted customers directly prior to work beginning

### Sewer Safety

If our project involved boring underground near your sewer or septic lines, we will conduct a follow-up inspection of your lines by inserting a camera through them. Although our installers take care to avoid sewer and septic lines, on rare occasions, a gas pipeline is inadvertently installed through those lines, which are often not mapped or detectable using above-ground sensors. This inspection verifies your sewer is clear of a gas line.

Visit [pse.com/sewersafety](http://pse.com/sewersafety) for more information about PSE's work with Hydromax USA to prevent cross bore danger.

We are proud to serve in your community and aim to complete the work with as little disruption as possible. If you have questions or concerns, please contact me and reference project number **109096696**. Thank you in advance for your patience and understanding during this project.

Sincerely,

Hector Gonzalez  
Puget Sound Energy
