[info@everettchamber.com](mailto:info@everettchamber.com)

Are you curious about waterfront changes over the last year and what you can expect in the future from the Port of Everett? **Keynote Speaker John Mohr, Executive Director of the Port of Everett**, will update you on current hot topics and projects including real estate, waterfront projects, public works projects, marinas, recreation, services and more. This special program will update Economic Alliance Snohomish County members and guests on how the Port of Everett is growing our economy and enhancing the quality of life in the region by creating jobs and generating direct economic benefits.

### **Special Feature: Summer Harbor Cruise**

Thank you to the Port of Everett for providing this special opportunity for event attendees this year. The 90-minute cruise can accommodate 65 event attendees (first come for tickets) and will depart at 6 p.m. after the program. The cruise will provide a unique look into the comings and goings of Everett's working waterfront, the Port's operations and explore the diverse roles the Port plays along the Everett waterfront. Topics of discussion on the tour will include international trade, property development, boating facilities, public recreation, environmental stewardship and more! During the summer, the Port of Everett partners with the City of Everett Parks Department to host free Working Waterfront Harbor Tours.
